

# Streamline

The Streamline is a complete all-in-one music system. Due to its remarkable compact size and stylish appearance it can be the perfect choice for any room. The Streamline is based upon the same platform as the Stream XP but it comes complete with a high performance built-in stereo power amplifier. Furthermore, the Streamline offers great flexibility as it can be upgraded, so you can add more powerful amplifiers if you want to build up your Streamline's performance in the months or years to come. Because it's designed for easy use but based on the flagship Stream XP, this is a supremely flexible choice.

Supplied with the stylish and intuitive n-remote control.

Streamline is based on the same platform as the Stream XP but is designed to offer an all in one music solution for the networked home. The built-in stereo amplifier means that this compact audio device can be a real hi-fi music solution anywhere in the home. Multiple Streamline units can simultaneously stream music into many rooms around a home. Streamline comes complete with the stylish and intuitive n-remote.

n-remote is a special two way control unit that makes browsing your networked music library simple, whilst also giving you full control of your streamer at the touch of a button. It also has an infra-red learning capability, so that it can swiftly learn to control other products in your home, making this a truly flexible handset. The direct RF (radio frequency) link from the n-remote provides a robust connection to your streamer, allowing fast and reliable control. Whether music is stored on your home network or iPod, the n-remote makes it possible for you to browse your music library by artist, album, genre or even access internet radio stations.

## n-remote specification

Hand held display and control communicating with Cyrus Streamline. Handset uses a 2.4GHz bi-directional interface embedded into the Cyrus streaming platform. The handset is linked into the Streamline user interface in the same way as front panel keys would be.

- Backlit keys
- Motion sensing backlight
- Colour screen
- RF Streamline interface
- IR Cyrus legacy command set
- IR learning ability for TV, AV system control
- Multi-room facility
- Upgradeable software
- Long battery life
- Chargebase and dock included

#### TuneIn Radio

If you love radio, you'll love TuneIn radio. This fabulous internet radio service is built into every Cyrus streaming model and provides access to over 30,000 stations from around the globe! You can create pre-sets, search for stations currently playing your favourite songs or just start listening instantly. With a massive choice of global stations covering all genres and real DJs selecting the tunes, you'll quickly discover new, relevant music. With a multitude of search options you'll always find something of interest and if your preference is for commentary on current events or a play by play of the big game, there are also many talk and sport stations to choose from.

Cyrus selected TuneIn by Radiotime for our streaming platform because it offers so many great features, yet is easy to setup and delivers something for everyone. From kid's stations to rock, jazz , metal, country, classical and soul to name but a few, internet radio has never been so varied and so much fun.

## Technical Information

Power supply

Voltage: As plate on rear of unit

#### Power consumption

Standby: <1W

Typical: 6.5W

EMC & Safety compliance: CE

#### Enclosure

Dimensions (W x H x D): 215 x 75 x 385mm

Weight: 2.15kg

Material: Die cast chassis

#### Network connectivity

Cabled: Ethernet

Wireless: 802.11g

#### Digital audio performance

USB drive format: FAT16, FAT32

Digital Input voltage: 500mV pk-pk

Digital Input Impedance: 75  $\Omega$

Digital audio formats: PCM stereo only

#### Connectivity

UPnP and DLNA compatible

Apple iPod digital USB input

SPDIF Inputs x 3

Optical Inputs x 2

SPDIF digital output x 1

TuneIn Radio

MC-BUS

RS232

#### Supported Files

WAV, FLAC, AAC, MP3, WMA, AIFF

High Resolution 24Bit/96Khz

## Control Interfaces

LCD front panel display with twist & click control

Supplied with n-remote

## Accessories

Wi-Fi antenna comes with magnetic base

## Analogue audio performance

Preamp output (full volume, 0dB FS): 3.99V

S/N ratio (Pre-out, 0dB FS): >105dBA

THD+N (Pre-out, 0dB FS): <0.005%

## Power amplifier performance

Power output: 30W//8  $\Omega$

THD+N Speaker out (Streamline only): <0.01%

S/N ratio (ref 1W): >80dBA
